## SIDESON 1 Jack-up Barge

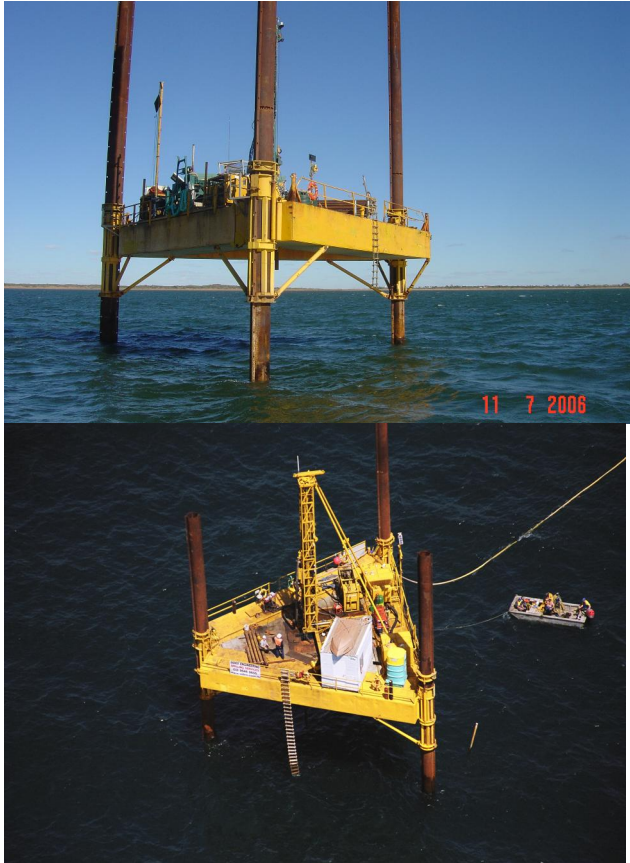

---

- Sideson 1 is a custom built self elevating jack up platform
- Built in 1975 by Harbour and Marine Engineering Pty Ltd
- The Platform has a deck loading of approximately 20 tonnes capacity
- Sideson 1 is modular and can be disassembled and road transported across the country minimising mobilisation costs.
- Sideson 1 is in survey with AMSA
- Sideson 1 is ideal for a variety of near shore marine operations including Geotechnical investigations, Piling, boring and pitching of piles, Dolphin installation and servicing, Wharf rehabilitation, Diver Support, Drilling and Blasting for Dredging, Offshore Mineral Exploration and Gas Pipeline installations
- Recently Sideson 1 has completed geotechnical investigations for Hammersley Iron and Rio Tinto Major Projects in Pt Hedland and is currently working on the Wave Energy Project on the East Coast.

# SIDESON 1

## SPECIFICATIONS

Type: Custom Jack-up  
Classification: USL Class 2C – Restricted offshore  
Length: 14.5 metres  
Width: ~13 metres  
Draught: Approximately 3.5m legs fully retracted  
Displacement: Working area: 75 tonne bare  
Deck Loading: 14m x 14m x 15m  
Leg Length: Useful Leg Length: ~ 20 tonne  
Leg Diameter: 26.6 metres  
Feet: 21 metres  
Power pack: 0.7 metre  
4 square metres  
*Jacking system:* Twin hydraulic cylinders per leg. 2m stroke, rotating lock, air actuated.  
*Power:* 2 radiator cooled 6/71 GM diesels, 150 HP each mounted above deck with direct air driven compressors and hydraulic pumps  
*Side Hulls (x2)* 2.5m x 14.5m x 3.5m  
*Rear Hull* 2.6m x 12.7m x 3.5m
