

## SIDESON 2

### Jack-up Barge

---

- Sideson 2 is a custom built self elevating jack up platform
- Built in 1981 by Harbour and Marine Engineering Pty Ltd
- The Platform has a deck loading of approximately 30 tonnes capacity
- Sideson 2 is modular and can be disassembled and road transported across the country minimising mobilisation costs.
- Sideson 2 is in survey with AMSA
- Sideson 2 is ideal for a variety of near shore marine operations including Geotechnical investigations, Piling, boring and pitching of piles, Dolphin installation and servicing, Wharf rehabilitation, Diver Support, Drilling and Blasting for Dredging, Offshore Mineral Exploration and Gas Pipeline installations
- Recently Sideson 2 has completed geotechnical investigations for Fortescue Metals Group in Pt Hedland, Woodside Energy at the Blacktip Development Project in the NT, and investigation of Brisbane River for Brisbane City Council.

# SIDESON 2

## SPECIFICATIONS

Type:	Custom Jack-up
Classification:	USL Class 2C – Restricted offshore
Length:	17 metres
Width:	16.5 metres
Draught:	Approximately 1.4m
Displacement:	120 tonne bare
Working area:	11m x 10m
Deck Loading:	~ 30 tonne
Leg Length:	33 metres
Useful Leg Length:	28 metres
Leg Diameter:	1 metre
Feet:	4 square metres
Power pack:	<i>Jacking system:</i> Twin hydraulic cylinders per leg. 2m stroke, rotating lock, air actuated. <i>Power:</i> 2 radiator cooled 6/71 GM diesels, 150 HP each mounted above deck with direct air driven compressors and hydraulic pumps
Principal modular items:	<i>Front beam</i> 10m x 3m x 1.5m <i>Rear beam</i> 16.5m x 2m x 2.24m <i>Hulls</i> 16m x 3.06m x 2.2m
